

TAX ABATEMENTS

FRIEND OR FOE?

As New Jersey's economy grows, more and more municipalities are embracing smart growth principles through redevelopment studies and plans in addition to leveraging PILOTs (Payments In Lieu of Taxes) to ensure project viability. Unfortunately, there is a general lack of understanding amongst residents leading to community controversy. This half-day workshop, hosted by industry leaders, will empower attendees with the knowledge necessary to understand and negotiate the best deals while also debunking redevelopment myths and misconceptions.

FRIDAY, JULY 27TH
8:30AM TO 12PM
